

RESEARCH NOTES for ROBERT WILLIAM CLARK Jr.

Source: Steve Clark, USA (nephew) 8th November 2018:

*"He (Robert William Clark jr) was born 27 Aug 1911 and died 02 Jan 1924 at age 12. According to the story my dad told me, he was a 'blue baby' (congenital weak heart / heart defect), and when he was sick they sent for a doctor, but since they had no money the doctor would not come, and his brother died in my father's arms waiting for the doctor to come."*
